

SAFETY ISSUE

7th May 2021

Dear Parents/Guardians,

When dropping off and picking up your child/ren, please take traffic rules and the surrounding home occupants into consideration.

Please make sure you do not speed and never stop your car across any residential driveways. It would also be appreciated if you could just “drop and go” to enable a smooth flow of traffic. An even better choice, would be if parents can park your cars away from the school immediate area and walk with the students instead.

We have been informed that City Council may turn up any time and fines will be issued on the spot.

Thank You for your co-operation.
